Technical Details

Maximum Power:	120 W	**Width:**	10 mm
Protection Class:	III	**Warranty:**	3 Years
Size:	68x10 mm	**Certifications:**	CE & RoHS, UKCA
Height:	68 mm		

Description

This Touch Switch connects a **Profile with an Aretha LED Strip** to a 24V DC Power Adaptor with a male Jack output. It connects to an Aretha Profile at one end and has a female Jack at the other.

Its function and installation are very easy, simply insert the corresponding end into the profile and to the power adaptor, touch the button to switch it on, and again to switch it off.

*Cable length: 530mm
