Technical Details

Maximum Tension:	600-1000V
Cable Size:	1-5 mm2
Material:	PVC
Air Temp. For Operation:	Max. 105 °C

Warranty:	3 Years
Certifications:	CE & RoHS, UKCA
Brand:	3M

Description

This Scotchlok 3M T/Y Connector **has a spring inside that guarantees a permanent and trustworthy cable connection**. Its cover is made from insulated and flame-retardant PVC. These connectors are compact, heat resistant and are an excellent solution for making connections, be it for flexible or rigid cables. They can be used for voltages of up to 600V (Building wire) or 1000V (Lighting).

This T/Y connector can be used to connect cables in which the sum of their sizes ranges from 1 to 5mm².
