Current Intensity	Ref:
160 A	87539-181633

Technical Details

Material	Pc	Lenght	119 mm
High	57 mm	Brand	MAXGE
Wide	34 mm	Current Intensity	160 A

Description

The **MAXGE NH gPV 1000V DC Max 160A fuse holders** are closed, disconnectable single-pole sockets for use with fuses for solar photovoltaic installations.

They are connected to a voltage of **1000 V DC, with NH fuses, with a maximum admissible current of 160A.**

These models are made of **plastic**, safe to mount and easy to fix.

Product reference: NHPV-H00B
