

Models

LED Starter	Colour Temperature	Ref:
	 Warm White 3000K	5018-11406
	 Daylight 4000K	5018-11407
	 Cool White 6500K	5018-11408

Technical Details

Power	14 W	Brand	PHILIPS
Tension	220-240V AC	Tube Length	60 cm
Brightness	1200 lm	Type of regulation	TRIAC
Use	Indoor	Selectable Opening Angle	360
IP Protection	IP20	Light color	Cool White, Daylight, Warm White
Room Temperature Work	-20 °C~+40 °C	Color Temperature	6500K, 4000K, 3000K
Useful life	25.000 Hours	Energy Efficiency 2023 (EU-2019/2015)	F

Description

This pack contains 10x 14W 55cm T5 HE Fluorescent Tubes with Double-Sided Power.

These 14W 550mm T5 HE Fluorescent Tubes with Double-Sided Power allow us to maintain fluorescent technology in our luminaires with a boost in quality that only a prestigious brand like Philips can provide. The diameter of the tube is Ø16 mm and the 'HE' that can be seen means: 'High Efficiency'.

Also known as triphosphor tubes, these are widely used in kitchens, commercial centres and in any domestic or commercial space. These are areas that require that lights be left on during long periods of time.

These are made from high quality materials, use efficient phosphorous that provide 10% savings when compared with older fluorescent tubes. **The installation requires an external feeding that provides voltage until the lights start-up.**

These Philips tubes also feature a translucent finish that minimizes glare and improves visual comfort.
