Current Intensity	Ref:
250 A	87541-181631

Technical Details

Material	Ceramics	Lenght	268 mm
High	102 mm	Brand	MAXGE
Wide	52.5 mm	Current Intensity	250 A

Description

The **MAXGE NH gPV gPV 1500V DC Max 250A fuse holders** are **closed, disconnectable** single-pole sockets for use with fuses for solar photovoltaic installations.

They are connected to a voltage of **1500V DC, with NH fuses, with a maximum admissible current of 250A.**

These models are made of **ceramic**, are safe to mount and easy to fix.

Part no.: NHPV-H1XLB
