Description

The Kanggo Natural Fibre Pendant Lamp combines a unique and elegant design with top quality finishes. This type of design lamps allow us to give that natural touch that will bring personality to any space making it unique.

Characteristics of the Kanggo Natural Fibre Pendant Lamp

The Kanggo Natural Fibre Pendant Lamp brings a unique style to any space. The light emitted by this pendant lamp depends on the **E27 LED bulb that is installed**. This way we can choose a warm, cold or neutral light depending on the atmosphere we want to create. An interesting option is to opt for some of the RGB or CCT bulbs that will give us extra versatility when lighting the space, whether in a home or in commercial premises. **It is widely used in environments as varied as dining rooms, bedrooms, kitchens, offices, living rooms, restaurants, cafés, etc.**

* As it is a natural material and a handmade product, the finish between units may differ slightly.

* Adjustable length suspension cable.

Uses 1 E27 bulb NOT INCLUDED in the product.
