Technical Details

Power	28 W	Brand	PHILIPS
Tension	220-240V AC	Tube Length	120 cm
Brightness	2600 lm	Type of regulation	TRIAC
Luminous Efficiency	94 lm/W	Selectable Opening Angle	360
Use	Indoor	Light color	Cool White, Daylight
IP Protection	IP20	Color Temperature	6500K, 4000K
Room Temperature Work	-20 °C~+40 °C	Energy Efficiency 2023 (EU-2019/2015)	F
Useful life	25.000 Hours		

Description

This pack contains 10x 28W 115cm T5 HE Philips Fluorescent Tube with Double-Sided Power.

These 28W 1150mm T5 HE Philips Fluorescent Tube with Double-Sided Power allow us to maintain fluorescent technology in our luminaires with a boost in quality that only a prestigious brand like Philips can provide. The diameter of the tube is Ø16 mm and the 'HE' that can be seen means: 'High Efficiency'.

Also known as triphosphor tubes, these are widely used in kitchens, commercial centres and in any domestic or commercial space. These are areas that require that lights be left on during long periods of time.

These are made from high quality materials, use efficient phosphorous that provide 10% savings when compared with older fluorescent tubes. **The installation requires an external feeding that provides voltage until the lights start-up.**

These Philips tubes also feature a translucent finish that minimizes glare and improves visual comfort.
