Technical Details

Use	Outdoor, Indoor	Colour	White
Brand	3M		

Description

This 3M Scotch 2123 C Re-Enterable Electrical Insulating Resin (350g) - IP68 is used for sealing and isolating electrical circuit boards. **This allows us to secure the isolation and seal of the connection to correctly protect 1kV connections from humidity.**

It's an excellent solution for outdoor light connections, public lighting, gardens and pools. It provides easy access to connections of cables upon reinsertion. The package contains 350gr. The 3M Scotch 2123 C Re-Enterable Electrical Insulating Resin (350g) - IP68 has been tested under CENELEC HD 623.S1 (EN50393) and complies with 2002/95/CE (RoHS) and 1907/2007/CE (REACH) UE directives.

Number of circuit boards that can be filled with a 350gr bag:

3x Round Boxes (70x35mm)

1.8x Square Boxes (80x80x35mm)

1x Square Box (100x100x55mm)

1/2x Rectangular Box (160x115x70mm)

1/4x Rectangular Box (220x170x80mm)
