Technical Details

Maximum Power:	2200 W
Voltage:	220-240V AC
Frequency:	50-60 Hz
Intensity Level:	10 A
Use:	Indoor, Outdoor
IP Protection:	IP44
Material:	PC
Installation:	Surface
Size:	115xØ77 mm

Height:	115 mm
Diameter:	Ø77 mm
Total Weight:	0.095 kg
Detector:	Dusk to Dawn
Detection Distance:	8 m
Detection Angle:	160°
Working Temperature:	-20°C ~ +40°C
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

Description

Photoelectric / twilight sensor that allows luminaires to be switched on/off depending on ambient light. Withstands a load of 10A.

Ideal for path marker lights, garden lights, etc.
