## ***Ambience***

## ***Description***

**This Inti Solar LED Light has an integrated LED, a presence detector and a solar panel that allows the battery to charge.** This Solar light doesn't need to be wired to the mains. It's simple to use and incorporates a light sensor. So, the solar panel charges during the day and **when the light sensor detects that the evening has begun, it will automatically turn on the light.**

Take a step forward in energy efficiency with this Inti Solar LED Light and join the clean energy revolution.
