Room Temperature Work	0°C - 0°C
Does not include	Bulbs
Space	Bedroom, Living room, Office
Diámetro del Florón	60 mm
Style	Modern, Industrial
Colour	Silver, Gold, White, Black

Ambience

Description

The Quartz Adjustable Metal Lampholder for GU10 Bulbs is a luminaire that stands out for its versatility, as it can be focused in any direction, thanks to its rotation axes.

These types of luminaires **can adopt different roles depending on the type of lighting to be implemented**. If you opt for softer lighting, select a Warm white bulb to create a warm and welcoming atmosphere. Contrary to a cooler, more potent bulb, it can become a perfect auxiliary light to illuminate a reading corner.

Designed for indoor use, the adjustable luminaire **can be seen in a multitude of spaces, whether commercial or domestic, the most common being: shops, shop windows, shopping complexes, supermarkets, exhibition halls, lounges, bedrooms, kitchens, corridors, etc.**

Requires x1 GU10 bulb NOT INCLUDED with the product.
