Description

The Flush Mounted Junction and Junction Box 200x130x60 mm is the solution for all types of junctions and branches.

This box has several pre-drilled entries on both the base and the sides. This offers a variety of possibilities when it comes to introducing the wiring. The junction box 170x110x50 mm is designed for flush mounting.

The junction box that we offer at our Ledkia, online shop has dimensions of 200x130x60 mm, is made of **high quality materials and has CE and RoHS certificates.**
