Technical Details

Voltage:	220-240V AC
Frequency:	50-60 Hz
Use:	Indoor
IP Protection:	IP20

Material:	PVC
Detection Distance:	25 m
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

Description

The Smart Plug is ideal for turning on and off the devices they are connected to, all wirelessly. The set has two sockets, although the remote can control up to 5 sockets.

The control distance is 25 meters. The controller is powered by a 12V 23A battery. The receiver is simple to mount, works with a voltage of 220-240V at a frequency of 50/60 Hz and accepts maximum loads of 1150W at 5 A intensity.
