## Description

**The GU10 Quartz Spotlight for a Three Phase Track is the perfect lighting element for spaces that need versatile lighting** that adapts to the needs of the moment.

It stands out for its ease of installation. **It is fully adjustable**, 360° on its axis, being able to be oriented in any direction and allowing **you to change the lighting depending on the presentation of the products you wish to display**. This spotlight can be used to enhance specific decorative elements, contributing to the creation of multiple atmospheres.

**The most widespread use of this type of fully adjustable LED luminaire** is in continuously changing spaces such as: shops, showrooms, galleries, shopping centres, etc. Places where a versatile lighting system that adapts to the needs of the moment is required.

**It requires 1 GU10 bulb NOT INCLUDED with the product.**
