Ref:

☐ Black - Unit of measure: 1 m

7250-16550

## Technical Details

Maximum Tension:	750 V
Wire Gauge:	3x1,5 mm2
Size:	1.000 mm
Length:	1.000 mm

Air Temp. For Operation:	Max 90° C
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

## Description

**This Cable Hose for Outdoors (3x1.5mm²) is made up of 3x pure-copper cables that are** ideal for use outdoors, featuring an extraordinary flexibility and resistance.

**The cable width is 1.5mm².** The 1.5mm² sections are common in domestic lighting installations.

It consists of a copper-electrolyte conductor, with an EPR rubber isolation and a black flexible rubber cover.

**The cover of the cables inside are blue, brown and Yellow/Green (earth).**

Complies with UNE-EN 50525-2-21 / IEC 60245-4 Regulations, with the permitted voltage being 100V, plus it's also designed for providing energy to all sorts of electrical equipment and water pumps.
