

Models

Colour

 Black

Ref:

36141-75669

Technical Details

Tension	220-240V AC
Rated Voltage	100-240V AC
Current Intensity	16 A
Use	Indoor
IP Protection	IP44

Number of Poles	2P + PE
Brand	SCAME
Colour	Black
Revisión Control de Calidad	No

Description

Manufactured by the prestigious brand Scame, world leader in the production of industrial electrical equipment, this type-F Extension Plug allows you to connect your load or receiver to a type-F plug or socket ("Schuko"), commonly used in domestic installations.

This device complies with the European standard IEC60884-1 (2006), supports a rated current of up to 16A and 250 V AC.

The most frequent applications and use for these type of products (plugs, sockets, bases, frames, etc.) extend to industrial environments such as **chemical industries, agriculture, construction, shipyards, sports facilities, public events, the food industry, airports, port areas and water treatment, etc.** In all these environments it is necessary to use **products with great durability, reliability, ease of wiring, high degree of IP and IK protection and optimum resistance to atmospheric agents and chemicals.**

For the insertion of the conductor cable, these plugs and sockets use screw terminals, screw clamps and spring terminals depending on the application of the product. Cable clamps with tulip locks are used to secure the cables, guaranteeing water-tightness and safety. **In general they guarantee safe and optimal use in the most adverse conditions.**

It complements the electrical installation of any space. Take a look at our wide range of different sockets, consumer units, adapters and electrical material available at LEDKIA.
