Technical Details

Power:	150 W
Frequency:	50-60 Hz
Input:	110-220V AC
Output:	12V DC
Intensity Level:	12.5 A
Protection Class:	I
Use:	Indoor
IP Protection:	IP20

Material:	Aluminium
Size:	42x98x200 mm
Height:	42 mm
Width:	98 mm
Length:	200 mm
Total Weight:	0.400 Kg
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

Description

The 12V power supply is ideal for connecting interior lighting systems that cannot be used with direct connection to the electrical network. It transforms the alternating supply of the electrical network, to 12V in continuous.

It has a nominal power of 150W. **Use indicated for permanent loads of up to 120W** . Its output current is 12.5A.

Its aluminum casing gives it great resistance and lightness. It has the CE and RoHS certificates that guarantee the quality and safety of the product, and also confirm that it does not contain toxic or dangerous materials.

It has a regulator through which we can adjust the continuous output voltage between a minimum of 10V and a maximum of 15V.

It also incorporates a voltage selector so you can change the input voltage of the power supply, since one voltage or another is used depending on the country.
