Technical Details

Power:	22 W		**Energy Efficiency 2023 (UE-2019/2015):**	F
Power Factor:	0.90		**Beam Angle:**	180º
Voltage:	220-240V AC		**Use:**	Indoor
Multi-Voltage:	85-265V AC		**IP Protection:**	IP20
Frequency:	50-60 Hz		**Special:**	+ Lamp holder
Screw:	T8		**Material:**	Nano PC
CRI:	80		**Length:**	1500 mm
Lumens:	2860 lm		**Warranty:**	3 Years
Luminous Efficiency:	130 lm/W		**Certifications:**	CE & RoHS, UKCA
Energy Efficiency 2021 (UE-1369/2017):	A+			

Description

This Kit includes a lamp holder and a 150cm 22W T8 G13 Nano PC LED Tube. To feed the tube, we'll have to keep in mind the icon that the tube has at one end. This will tell us at which end we'll have to feed the tube. We'll need to place the end of the tube with the icon into the lamp holder, which has the red and brown cables. Next, we'll feed the lamp holder using the red and brown cables (consult diagram).

*The size of the lamp holder is 1500x33x14 mm.
*The size of the tube is Ø28x1500 mm.

*Led Starter not included.

*T8 LED Tube Installation Guide
