Technical Details

Use:	Indoor	Length:	170 mm
IP Protection:	IP20	Warranty:	3 Years
Size:	170 mm	Certifications:	CE & RoHS, UKCA

Description

This Double 10mm Connector Cable for SMD5050 RGB LED Strips allows us to connect sections of 12V/24V RGB LED strip that we have previously cut and, therefore, don't have connectors. They are 10mm wide and 17mm long. On the cable we'll find a connector at each end which allows us to attach RGB LED Strips.

How to use this Double 10mm Connector Cable for SMD5050 RGB LED Strips

Installation is very simple. First cut the LED strips along the marked lines. Then, place one end of the strip onto the connector so that it's inserted under the connection pins, close the connector and done.

Here at LEDKIA you'll find this Double 10mm Connector Cable for SMD5050 RGB LED Strips at the best price.

*Not compatible with 12V LED Strips with 120LEDs/m.
