Description

This Junction Box (170x110x50mm) is ideal for keeping all of the connections in our installation within the walls.

This Box is especially designed for installation in hollow partitions or in plasterboard. It includes different **easy-access entrances for inserting cables**. It's therefore a very versatile element that's easy to use.

This Junction Box (170x110x50mm), found here at LEDKIA, our online lighting shop, **has high quality finishes** and both CE and RoHS certifications.
