LED Starter	Colour Temperature	Ref:
<input type="checkbox"/>	No Flicker Daylight 3800K - 4200K	5799-179009

Technical Details

Power	9 W	Material	Pc
Tension	220-240V AC	Lenght	600 mm
Rated Voltage	85-265V AC	Includes	Driver
Frequency	50-60 Hz	Selectable Opening Angle	180
Casquillo	T8	Tube Length	60 cm
Color Rendering Index (CRI)	80	Light color	Daylight
Brightness	1170 lm	Color Temperature	3800K - 4200K
Luminous Efficiency	130 lm/W	Energy Efficiency 2023 (EU-2019/2015)	F
Use	Indoor	Flicker	No Flicker
IP Protection	IP20		

Description

This Kit includes a lamp holder and a 60cm 2ft 9W T8 G13 Nano PC LED Tubes 130lm/W. To feed the tube, we'll have to keep in mind the icon that the tube has at one end. This will tell us at which end we'll have to feed the tube. We'll need to place the end of the tube with the icon into the lamp holder, which has the red and brown cables. Next, we'll feed the lamp holder using the red and brown cables (consult diagram).

*The size of the lamp holder is 600x33x14 mm.

*The size of the tube is Ø28x600 mm.

*Led Starter not included.

*T8 LED Tube Installation Guide
