Colour Temperature	Ref:
 Warm White 3000K - 3500K	54984-108653
RGB	54984-108752

Technical Details

Power	4.8 W	It works with battery	Yes
Adjustable	No	Battery Voltage	1.2 V
LED number	100	Battery Capacity	600 mAh
Use	Outdoor	Type of Load	Solar
IP Protection	IP65	Useful life	10.000 Hours
Material	PVC	Space	Yard, Pool, Terraces / Balconies
Colour	Black	Light color	RGB, Warm White
length	12 m	Color Temperature	3000K - 3500K
Working temperature	-20 °C~+40 °C		

Ambience

Description

The LED Garland String Light is charged via **solar energy** thanks to its solar plate that can be installed anywhere at a certain distance from the garland, either screwed or mounted.

It incorporates a daylight sensor that automatically turns the garlands on at night and turns them off during the day. It is able to illuminate for more than 8 hours daily due to the **1200 mAh battery integrated into the solar plate.**

This garland features 8 impressive lighting modes: Combination, Fireflies, Waves, Fade, Chase, Slow Fade, Flicker and Constant On. Choose your favourite modes for different occasions.

With a constant 360° viewing angle that lights up in all directions, this garland is ideal for decorating gardens, patios, doors, lawns, trees, etc.

The LED Garland String Light is the perfect decorative accessory as it is durable and portable. Available at **LEDKIA**, our online LED shop.
