## Description

This 1617 Zinc Spray is an ideal cold galvanizer, made by the 3M brand, **that provides permanent protection against rust and corrosion by electrochemically bonding with the metal surface it is sprayed onto.**

This 3M Scotch 1617 Zinc Galvanizer Spray has excellent adhesion to iron and steel, is resistant to weathering, UV radiation, moisture, heat up to 500°C, alkaline solutions and mineral oils. It is an ideal primer for metal constructions and complies with DIN 50976 (zinc content) and DIN 53167 (corrosion protection). **Contains 400 ml.**
