## Description

**This Larso Solar LED Table Lamp features a solar panel that recharges the battery.** This Solar LED Table Lamp doesn't require a connection to the mains. It works in a simple manner, the solar panel includes a light sensor so that during the day, the panel feeds and charges the battery integrated into the Lamp. **When the light sensor detects that it's night-time, it automatically turns the Sphere On.**

Take a step towards energy efficiency with this Solar LED Table Lamp and join the clean energy revolution.

In addition, a usb cable is included to charge the battery in case it cannot collect enough solar energy.

\* This Product has an EU type plug and requires and UK adaptor found [here](#).
