

## Models

Colour Temperature	Ref:
 Warm White 3000K	467-1044
 Daylight 4000K	467-1045

## Technical Details

Power	1.5 W
Tension	220-240V AC
Rated Voltage	85-265V AC
Frequency	50-60 Hz
Adjustable	No
Light points	1
Color Rendering Index (CRI)	70
Brightness	165 lm
Use	Indoor
IP Protection	IP20

Material	Pc
Installation	Recessed
High	94 mm
Wide	94 mm
Lenght	60 mm
Useful life	40,000 Hours
Light color	Daylight, Warm White
Color Temperature	4000K, 3000K
Energy Efficiency 2023 (EU-2019/2015)	F

## ***Ambience***

## Description

**This Randy LED Step Light with a Black Finish is perfect for signal lighting on stairs and in hallways.** With a modern design, it allows us to mark off passing areas with dim but sufficient light.

It has 1.5W of power and a 165 lumen brightness, which is more than enough to do its job. It has a 120° opening angle and a Colour Rendering Index that's rated 70. **This Randy LED Step Light is made of highly-resistant fireproof PC** and measures 94x94x60mm.

Its installation requires an 82x82x50mm cut-out and is connected directly to the mains without needing a transformer.

Advantages of this Randy LED Step Light

**The main advantage of these LED step lights that they are low consumption,** which allows us to save 80% in electrical consumption. This, along with the energy efficiency they provide, makes LED lighting the best option when choosing a lighting system.

Another advantage Randy LED Step Lights have with respect to halogen bulbs is that the former are **much more ecological, they practically don't emit CO2, they don't contain hazardous substances and have a working life of approximately 30,000 hours.**

What are you waiting for? Get yourself a Randy LED Step Light with a Black Finish. It's an efficient, ecological and economical option for signal lighting on stairs and in hallways. Find your step light here at LEDKIA, our online lighting shop.
