Technical Details

Power:	8 W
Power Factor:	0.90
Voltage:	220-240V AC
Frequency:	50-60 Hz
Intensity Level:	38 mA
Screw:	T8
CRI:	80
Lumens:	800 lm
Energy Efficiency 2021 (UE-1369/2017):	A+
Energy Efficiency 2023 (UE-2019/2015):	F
Beam Angle:	300°

Use:	Indoor
IP Protection:	IP20
Material:	Glass
Size:	600xØ28 mm
Length:	600 mm
Diameter:	Ø28 mm
Working Temperature:	-20°C ~ +40°C
Life Span:	30,000 Hours
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA
Brand:	PHILIPS

Description

This Pack contains 10 x Philips CorePro 600mm 8W T8 G13 LED Tubes With One Side Power.

This Philips CorePro 1200mm 14.5W T8 G13 LED Tube With One Side Power is perfect for replacing conventional fluorescent tubes in your home and business, with all the trust and quality of Philips.

The 800 lumens provided by its LED source are enough to replace 20W fluorescent tubes with natural light, favouring immediate energy savings. It has a 100lm/W efficiency that provides us with **energy savings of up to 50%**, in comparison with previous technologies. Also, the beam angle is 180°, and the tube features a translucent cover and a rotary head.

The connection is made to one side (on the end of the tube that says: 'input'). **A connection straight to the mains will allow us to remove the additional consumption of ballasts and starters**, allowing for longer durability and less maintenance. Also, these Philips CorePro 600mm 8W T8 G13 LED Tubes With One Side Power turn On instantly and don't flicker. They also feature a heat sink that's made of pure aluminium.
