

## Models

Colour Temperature	Ref:
 Warm White 3000K	632-1459
 Cool White 6000K	632-1460

## Technical Details

Power	3 W
Tension	12V AC, 12V DC
Electric Insulation Class	II
Adjustable	No
Light Source	EPISTAR
LED number	3
Brightness	270 lm
Use	Outdoor
IP Protection	IP68
Material	Stainless Steel 316L

Installation	Surface
High	135 mm
Wide	83 mm
Lenght	100 mm
Cable Length	2000 mm
Useful life	50,000 Hours
Light color	Cool White, Warm White
Color Temperature	6000K, 3000K
Energy Efficiency 2023 (EU-2019/2015)	F
Revisión Control de Calidad	No

## *Ambience*

## Description

**This 3W 12V LED Surface Spotlight (IP68) is perfect for all types of outdoor spaces** like gardens, pathways, entrances or patios.

Its 3x Epistar LEDS emit a brightness equivalent to a 20W halogen floodlight, with a fraction of electrical consumption. **It's made of stainless steel and has a very extended working life, up to 50,000 hours.** This type of LED lighting for fountains and gardens is highly versatile.

As its an element that is generally installed close to water, this 3W 12V LED Surface Spotlight (IP68) **has an IP68 Protection factor.** As it has a rotatable head, we can point the light into any direction.

This 3W 12V LED Surface Spotlight (IP68) **is used as signal, path** and even emergency **lighting.** Find this 3W 12V LED Surface Spotlight at LEDKIA, our online lighting shop, or the unit that will best adapt to your needs.

\*Includes a 1 metre (approx.) pre-wired cable.

\*Does not include transformer.
