Technical Details

Tension	220-240V AC
Rated Voltage	85-265V AC
Frequency	50-60 Hz
Casquillo	T8
Light Source	SMD3014
Energy Efficiency 2023 (EU-2019/2015)	F
Use	Indoor
IP Protection	IP44

Material	Aluminum, Pc
Lenght	1500 mm
Diameter	26 mm
Detector	PIR
Detection Angle	180 °
Room Temperature Work	-20 °C~+45 °C
Tube Length	150 cm
Selectable Opening Angle	160

Description

This 24W T8 LED Tube has PIR motion detection, emits a brightness of 2,400 lumens, has a 30,000 hour lifespan and comes in a translucent cover.

The detector senses invisible infrared emissions coming from either people or heat sources without emitting any radiation, activating only when a heat source moves in front of the switch and then, after 30 or 40 seconds, reducing brightness by 20% once the heat source is no longer in range.

For the tubes to function correctly, we recommend that they be installed in **open luminaires**

The 85V-265V AC Multi-Voltage refers to peaks and drops. The tubes cannot continuously function at these voltages.

How to install LED Tubes
