## Technical Details

<b>Tension</b>	220-240V AC
<b>Rated Voltage</b>	85-265V AC
<b>Frequency</b>	50-60 Hz
<b>Casquillo</b>	T8
<b>Light Source</b>	SMD3014
<b>Energy Efficiency 2023 (EU-2019/2015)</b>	F
<b>Use</b>	Indoor
<b>IP Protection</b>	IP44

<b>Material</b>	Pc, Aluminum
<b>Lenght</b>	600 mm
<b>Diameter</b>	26 mm
<b>Detector</b>	PIR
<b>Detection Angle</b>	180 °
<b>Room Temperature Work</b>	-20 °C~+45 °C
<b>Selectable Opening Angle</b>	160
<b>Tube Length</b>	60 cm

## Description

This 9W T8 LED Tube has PIR Motion Detection, emits a brightness of 900 lumens, has a 30,000 hour lifespan and comes in a translucent cover.

The detector captures invisible infrared emissions coming from either people or heat sources without emitting any radiation, activating only when a heat source moves in front of the switch and then, after 30 or 40 seconds, reducing brightness by 20% once the heat source is no longer in range.

For the tubes to function correctly, we recommend that they be installed in **open luminaires**.

How to install LED Tubes
