Description

This 1-10V LED Dimmer operates at 90-240V AC and allows us to control the brightness, from 0-100%, of all LED solutions that require dimming, like the products that can be found in the 'Accessories' section.

This **LED Dimmer** offers the the possibility of creating dimmed cosy environments as well as allowing the user to have areas with great luminosity, all this with a single turn of the controller.

* Can be fitted in a universal recessed box or surface mounted.
