Certificates	RoHS, CE, UKCA
Warranty	3 Years
Colour	White

Description

This Universal Surface Junction Box measures 92x92x42mm and allows us to install recessed mechanisms without needing to drill the wall.

Made of halogen-free polycarbonate (PC), this universal box is highly resistant and with pre-cut connection ports for pipes, cables and gutters. **Due to its dimensions, we can install standard-sized mechanisms** as it's compatible with most of flush-mounted series of electric appliances on the market.

The 92x92x42mm universal surface box **is usually used in indoor installations like for armoured tubes or channelling**. A product that undoubtedly fulfills its purpose and allows us to add power sockets or switches to any surface.

*Includes fixing screws.
