Description

This 1601 Electrical Insulating Sealer (400ml) is made by the well-known 3M brand. **It's a red insulating and covering spray that protects electrical connections, switches, equipment, terminal boards, electrical components, printed circuits, coils and windings.**

Based on alkyd resin, it “hardens” into a flexible and resistant film, with excellent adhesion to most common surfaces such as metal, glass, plastic, wood, etc. It's resistant to UV-rays, acids, oil and alkalis, it is moisture and weatherproof and is especially characterized by its high dielectric strength. **Contains 400 ml.**
