Technical Details

Frequency	50-60 Hz
Current Intensity	6.5 A
Electric Insulation Class	I
Use	Indoor
IP Protection	IP20

Material	Aluminum
High	30 mm
Wide	97 mm
Lenght	160 mm
Brand	MEAN WELL

Description

The 24V power supply is ideal for connecting interior lighting systems that cannot be used with direct connection to the electrical network. It transforms the alternating supply of the electrical network, to 24V in continuous.

It has a nominal power of 150W. **Use indicated for permanent loads of up to 120W** . Its output current is 6.5A.

Manufactured by the prestigious brand Mean Well, it is light and compact. Its aluminum casing gives it great resistance. It has the CE and RoHS certificates that guarantee the quality and safety of the product, and also confirm that it does not contain toxic or dangerous materials.

It has a regulator through which we can adjust the continuous output voltage between a minimum of 20V and a maximum of 25V.
