Finish	Ref:
☐ PC	6891-15963

Technical Details

Voltage:	220-240V AC		**Length:**	2 m
Beam Angle:	120º		**Warranty:**	3 Years
Material:	PC		**Certifications:**	CE & RoHS, UKCA

Description

This cable is made up of three high-security flexible copper electrolyte cables with polythylene isolation and a thermoplastic polythylene cover that's free of halogens (non-conductive of flames), with a low toxic gas emission ad no emission of corrossive gases.
This feeding cable with an EU plug is 2m in length and on each end it has three copper cables that allow us to connect to live, neutral and earth.
