## Technical Details

<b>Tension</b>	220-240V AC
<b>Rated Voltage</b>	85-265V AC
<b>Frequency</b>	50-60 Hz
<b>Light Source</b>	SMD2835
<b>Energy Efficiency 2023 (EU-2019/2015)</b>	F
<b>Use</b>	Indoor
<b>IP Protection</b>	IP44

<b>Material</b>	Pc, Aluminum
<b>Lenght</b>	600 mm
<b>Diameter</b>	32 mm
<b>Room Temperature Work</b>	-20 °C~+50 °C
<b>Selectable Opening Angle</b>	120
<b>Tube Length</b>	60 cm

## Description

Special 9W T8 G13 LED tube for butcher shops with a brightness of 800 lumens. It has a translucent glass that offers a pink light specially designed for installation in refrigerated shelves or in all types of facilities that illuminate food.

Traditional fluorescent lighting consumes 50% more energy and emits high levels of green and yellow wavelengths and very few red and blue wavelengths, negatively impacting lean tissue color from red to white. a brown color, and from the white fat it turns to a yellowish or greenish color. It is for this reason that special T8 LED tubes are used for butchers, since their lighting on the products makes them more attractive to the eye.

**The T8 LED tube uses SMD2835 LED technology and has an IP44 protection factor** , which allows it to function without any problem in a temperature range between -20°C and +50°C.

By purchasing this product in the online store you will **enjoy a 2-year guarantee** .

\*Does not include Led Starter .

\*Installation guide for LED tubes.
