Description

The Round 20W High Lumen LED Panel stands out for its excellent luminous output of 120lm/W as well as its slim design, making it the perfect solution for installations where space is limited.

It features an integrated SMD LEDs that provide **high quality light distributed at a beam angle of 120°**. Its performance is perfect to replace a halogen luminaire up to 200W and it has a lifespan of 30,000 working hours.

Advantages of the Round 20W High Lumen LED Panel

The main advantage of this type of LED panel is its compact size, which allows you to install it into false ceilings, even with limited space. At the same time, its reduced consumption and durability **allow you to drastically reduce the cost of your electricity bill as well as the cost of maintenance** and light replacement.

Enjoy the Round 20W High Lumen LED Panel with an **unbeatable price**, only available at LEDKIA our online lighting shop.
