Description

The 5W 12V GU5.3 MR16 Glass SMD LED Bulbs allows the user to replace traditional halogen bulbs easily, without having to replace the lampholder.

With a luminous output of 76 lm/W, it is more than capable of replacing a 35-40W halogen lamp whilst **achieving significant savings in electrical consumption**. The GU5.3 MR16 SMD Glass LED Bulb has a 38° beam angle and a colour rendering index higher than 80.

This type of LED lighting is perfect to replace old halogens fittings without complications by removing the ballasts and changing the lamp holders. Just remove the old bulb, install the new bulb and start enjoying a quality and efficient lighting.

At Ledkia lighting, 5W 12V GU5.3 MR16 SMD Glass LED Bulb is available in various color temperatures to choose from.

*Not compatible with electronic ballast.
