Description

Extension cable reel type H05VV-F with a 3x1.5 mm2 section with a 25-meter extension socket and 4 German Socket type plugs. A product with very good performance with which it is possible to connect various electronic devices to the mains through its plugs, such as electrical appliances, power tools, etc., allowing them to be used at a distance. Its plug head remains fixed while we roll up or unroll the cable.

Unwinding supports a maximum load of 3200 Watts while the maximum load with the cable wound up is 1100 Watts.

It has child protection and overload protection, which in case of overheating of the device or the cable cuts off the current. Once it has cooled down, proceed to manual reset through the red button on the front of the device.

It complies with ISO 9001 and is CE & RoHS, GS (Geprüfte Sicherheit), TÜV and SÜD certified.
