Technical Details

Power	20 W
Tension	12V AC, 12V DC
Electric Insulation Class	II
Adjustable	No
LED number	252
Color Rendering Index (CRI)	80
Brightness	2000 lm
Luminous Efficiency	90 lm/W
Use	Outdoor
IP Protection	IP68

Material	Pc
Colour	White
Installation	Surface
Lenght	40 mm
Diameter	260 mm
Room Temperature Work	-10 °C~+50 °C
Useful life	40,000 Hours
Light color	Cool White
Color Temperature	6000K
Energy Efficiency 2023 (EU-2019/2015)	F

Description

The 20W 12V AC/DC IP68 Surface LED Pool Light in 6000K is a unique and interesting option to decorate your swimming pool, fountain or water feature whilst saving a lot of energy. This kit includes a stainless steel installation ring.

Characteristics of the 20W 12V AC/DC IP68 Surface LED Pool Light

It is made of ultra-resistant polycarbonate, perfect for protection against UV rays, designed to remain under water for long periods of time with its IP68 protection factor. However, it is not suitable for installation and use in salt water.

Installation for the 20W 12V AC/DC IP68 Surface LED Pool Light

- * Not suitable for use in salt water
- * It is not advisable to test the product out of water for more than 20 seconds.
- * For correct operation it is necessary to have a suitable power adapter, depending on the colour temperature of the pool light it works at 12V AC or DC.
- * It must be taken into account that for its correct installation the surface of the pool must be perforated to remove the wiring.

You will find everything you need to enjoy your pool and garden like never before with LEDKIA, our online LED shop.
