

Models

Colour Temperature	Ref:
 Warm White 2700K - 3200K	436-919
 Cool White 6000K - 6500K	436-920
 Daylight 4000K - 4500K	436-2027

Technical Details

Power	12 W	IK Protection	IK05
Tension	220-240V AC	Material	Aluminum
Rated Voltage	85-265V AC	Installation	Recessed
Frequency	50-60 Hz	High	20 mm
Electric Insulation Class	II	Diameter	168 mm
Adjustable	No	Room Temperature Work	-10 °C~+45 °C
Light Source	OSRAM	Includes	Driver
Color Rendering Index (CRI)	80	Useful life	40,000 Hours
Brightness	960 lm	Selectable Opening Angle	120
Type of Lens	Frost	Light color	Daylight, Cool White, Warm White
Use	Indoor	Color Temperature	4000K - 4500K, 6000K - 6500K, 2700K - 3200K
IP Protection	IP20	Energy Efficiency 2023 (EU-2019/2015)	F

Description

The Silver Round 12W UltraSlim LED Panel stands out for its innovative and modern design.

This panel features SMD2835 LED chips and provides a luminous output of 960 lumens, equivalent to 100W of incandescent lighting.

The light emitted is distributed at an angle of 120°. This beam angle is perfect for quality general lighting. Its high colour rendering index faithfully reproduces colours as they naturally appear.

Applications of the Silver Round 12W UltraSlim LED Panel

These LED downlights are ideal for illuminating spaces that demand high performance during long periods of time. These panels are **widely used in all types of environments including residential homes or commercial spaces.** In addition, it is very easy to install and, being so slender, can be placed in false ceilings where there is not much space.

The Silver Round 12W UltraSlim LED Panel available at our online shop has a **lifespan of approximately 30,000 hours.** Sign up now for energy efficiency with LEDKIA.
