

Models

Colour

☐ White

Ref:

35763-75039

Technical Details

Maximum Power	2000 W
Tension	220-240V AC
Rated Voltage	100-240V AC
Frequency	50-60 Hz
Use	Indoor
IP Protection	IP20
Material	Pc
Installation	Surface

High	61 mm
Wide	61 mm
Lenght	32 mm
Working temperature	0 °C~+0 °C
Room Temperature Work	0 °C~+0 °C
Certificates	RoHS, CE, UKCA
Warranty	3 Years
Colour	White

Description

The Single Surface Crossover Switch is also known as a 3-way switch or crossover switch. Crossover switches are combined with switchgear to control the same light from as many switches as desired. They are widely used in master suites where you want to be able to control the main light from the door as well as from both sides of the bed. **They are placed between two crossover switches.**

They offer great resistance and durability as well as a simple and fast installation because it is a surface switch, it does require additional work.

It complements your electrical installation for any space with the different sockets and plugs available in our wide range of products that we offer at LEDKIA.
