Colour

☐ White

Ref:

61775-120897

Technical Details

Maximum Power:	48W 12V / 96W 24V
Voltage:	24V DC, 12V DC
Max Output Current:	4 A
Dimmable:	APP
Light Colour:	RGB
Energy Efficiency 2021 (UE-1369/2017):	A+
Use:	Indoor
IP Protection:	IP44

Material:	PC
WiFi Range	Wifi 2.4 GHz
Air Temp. For Operation:	-20°C ~ +40°C
Connectivity:	Wi-Fi
APP:	Tuya Smart
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

Description

The RGB TUYA WIFI Mini LED Strip Controller is specially designed to control the **connected RGB LED strips remotely** from a mobile phone. **The user can control the intensity of the strip as well as the on/off function** from anywhere at any time. In addition, it allows the user to **program simple surroundings or ambient lighting** according to the users needs. Fully compatible with Amazon Alexa and Google Home.

It has an input voltage of 12 to 24V DC, with an output current of 2 A.

Configuration and management will be done through the TUYA application that is available for iOS and Android operating systems. This can be downloaded from the App Store and Google Play respectively.
