Technical Details

Frequency	50-60 Hz	Material	Aluminum
Current Intensity	2.5 A	High	43 mm
Electric Insulation Class	I	Wide	67 mm
Use	Outdoor	Lenght	167 mm
IP Protection	IP67		

Description

This **alternate current AC to direct current DC transformer** provides a 24V DC output at 2.5A.

* It's capable of withstanding 60W peaks and is suitable for permanent charges of up to 48W.
