Description

The Royal Aluminium Adjustable 2 Spotlight Ceiling Lamp is especially designed for indoor lighting.

With an elegant design, it can be used in both commercial spaces, like shop windows and on shelves, and also in homes, like in living rooms, bedrooms and so on. As they're made from aluminium, these Adjustable Royal Spotlights stand out thanks to the quality of their finish.

This is a very versatile type of LED lighting as it can be pointed in any direction thanks to its rotation axis. Also, we can completely customize the type of light in function with the bulbs we install within the lamps. This allows us to adapt the brightness of the light to the needs of each area.

Requires 2 E14 Bulbs that ARE NOT INCLUDED
