

Models

Colour Temperature	Ref:
 Daylight 4000K - 4500K	51860-103417
 Cool White 6000K - 6500K	51860-103439

Technical Details

Power	150 W	Material	Aluminum, Crystal
Tension	220-240V AC	Installation	Surface
Rated Voltage	190-260V AC	High	365 mm
Frequency	50-60 Hz	Wide	335 mm
Electric Insulation Class	I	Lenght	85 mm
Light Source	LUMILEDS SMD2835	Weight	3.1 kg
LED number	324	Working temperature	-20 °C~+40 °C
Color Rendering Index (CRI)	80	Useful life	100,000 Hours
Brightness	19950 lm	Type of regulation	TRIAC
Luminous Efficiency	133 lm/W	Selectable Opening Angle	120
LED Performance	145 lm/W	Light color	Daylight, Warm White, Cool White
Use	Indoor, Outdoor	Color Temperature	4000K - 4500K, 2800K - 3200K, 6000K - 6500K
IP Protection	IP65	Energy Efficiency 2023 (EU-2019/2015)	E
IK Protection	IK08	Flicker	No Flicker

Description

The 150W HE PRO Dimmable LED Floodlight 145 lm/W IP65 is ideal for use in outdoor spaces where it will effectively replace traditional floodlights up to 1500W. It has an adjustable design that allows it to be placed in many positions.

Characteristics of the 150W HE PRO Dimmable LED Floodlight 145 lm/W IP65

Its light source LUMILEDS SMD 2835 LED technology has a high efficiency, which is spread over an angle of 120°. The light produced is of high quality, as shown by its colour rendering index of over 80. It operates at 220-240V AC.

It is made from aluminium, a solid and resistant material that ensures its durability. The radiator it incorporates guarantees optimal heat dissipation. It has an IP65 protection rating which makes it perfect for outdoor use.

Advantages of the 150W HE PRO Dimmable LED Floodlight 145 lm/W IP65

The advantages of this floodlight are many, including its long life (approximately 50,000 hours), practically zero maintenance requirements, immediate start-up without flickering, immediately restoring the lighting conditions prior to a power cut and, of course, its low consumption ensures significant energy savings.

Without a doubt, the 150W HE PRO Dimmable LED Floodlight 145 lm/W IP65 is a high-performance product with maximum energy efficiency. Find it in our online lighting shop at an incredible price.

* This product has a pre-wiring of approximately 500mm.
