Features of the Kurangna Clamp Lamp

The **Kurangna Clamp Lamp** has an original design. The light it produces will depend on the GU10 LED bulb installed, as we can choose a warm, cold or neutral light depending on the desired atmosphere. An interesting option is the RGB or CCT bulbs, as they will give us extra versatility when it comes to lighting up the space. It is suitable for home decoration as well as for any shop. In addition, it has an adjustable bracket that allows us to adjust it in different ways.

x000D

It is used in a wide variety of environments such as dining rooms, bedrooms, living rooms, restaurants, cafés, etc.

Discover all the decorative options offered by the range of Clamp Lamps in our online shop Ledkia.
