Description

This 6W Asturica LED Wall Light ILUZZIA has an elegant and modern design, perfect for lighting and decorating any style of area.

Its Epistar light source provides 320 lumens of brightness, which is equivalent to a conventional 25W light. **The light beam has an 80° opening angle and the light incorporates a frosted diffuser which removes glare.** This 6W Asturica LED Wall Light works at 220-240V AC and 50-60Hz.

It's frequently used for indoor and outdoor passing areas and for lighting facades. It's also made from aluminium which provides it with an IP54 Protection factor. Its high quality materials have a 30,000 hour working life.

Give any outdoor area a modern touch with this 6W Asturica LED Wall Light ILUZZIA, available here at LEDKIA in a variety of colour temperatures.

*This fitting must be installed with the screws facing down.
