Ref:

7292-16593

Technical Details

Maximum Tension:	1500 V	IP Protection:	IP68
Intensity Level:	32 A	Material:	PC
Protection Class:	II	Working Temperature:	-40°C ~ +90°C
Cable Size:	6 mm ²	Warranty:	5 Years
Use:	Indoor, Outdoor	Certifications:	CE & RoHS, TÜV

Description

These Multi-Contact MC4 1/1 Connectors are used for connecting photovoltaic modules in parallel, integrated under cover or within any type of installation, with different cables with 4 to 6mm² dimensions which make up part of the installation. **They feature a blocking system and they're easy to install.**

Its design complies with the strict electrical requirements in photovoltaic installations, aside from offering safe connections and avoiding accidental disconnections.
