Technical Details

Maximum Power:	20 W
Voltage:	220-240V AC
Frequency:	50-60 Hz
Protection Class:	I
Screw:	E27
Points of Light:	1
Light Source:	E27 Bulb
Lens Type:	Frost
Use:	Outdoor
IP Protection:	IP54
IK Protection:	IK08

Material:	PMMA, Aluminium
Colour Code:	RAL 9011
Installation:	Surface
Size:	740x110x110 mm
Height:	740 mm
Width:	110 mm
Length:	110 mm
Doesn't include:	Bulbs
Warranty:	5 Years
Certifications:	CE & RoHS, UKCA

Description

The Augusta LED Outdoor Bollard 74cm in Black is a lighting element with an elegant and modern design that will bring a minimalist touch to our garden.

The light emitted by this outdoor beacon depends on the E27 bulb that we place in it. In this way, we can decide exactly how much light we want at each point. The Augusta bollard is powered directly from the mains, as it operates at 220V.

It is made of aluminium and PMMA (polymethylmethacrylate), which is a thermoplastic polymer that **offers excellent resistance to ultraviolet radiation**. In addition, the opal finish of the diffuser makes the lighting very uniform and glare-free. It has IK08 and IP54 protection factors, making it perfectly suited to outdoor environments.

Requires 1 E27 bulb NOT INCLUDED with the product.
