Technical Details

Voltage:	220-240V AC
Multi-Voltage:	100-240V AC
Frequency:	50-60 Hz
Intensity Level:	10A
Use:	Indoor
IP Protection:	IP20
Material:	PC

Installation:	Recessed
Size:	86x86 mm
Height:	86 mm
Width:	86 mm
Working Temperature:	-10°C ~ +40°C
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

Description

This 3-Gang 1-Way Switch with PC Frame is the ideal solution for connecting three sections of lights with individual control over them giving a touch of design. Available in two colours, they are very resistant and durable.

These switches have the standard size, so they can be installed in any frame. They come with a PC frame although it is possible to install them in the glass frame that can be found in the accessories section for a more professional finish. The glass frame includes the necessary elements to be able to be installed on a standard universal box.

Electrical Mechanisms; Plugs and Sockets de Direlec Group
